2T Electric Forklift Truck

- A sensor automatically adjusts the turning speed for improved safety and stability.
- Full-AC motor and controller allows speeds to be adjusted to match customer and site requirements.
- Regenerative braking recharges the battery when braking, so operating time between charging is extended.
- High-definition display monitors and reports the truck's vital performance data providing the operator with up-to-date information.
- Cold storage and explosion-proof product options are available.
